Following the **great post „Yes, You should have hobbies outside of code by Ashlee Boyer**, I'd like to know what your hobbies outside the tech bubble really are.

I go first: I'm a hobby musician and actor in an amateur open air theatre (german speaking folks can **check out our website**) and that's a great counterpart to being an SRE/DevOps Engineer.

Btw, that cover picture is from our current production of „Madagascar"

Now you!
