

The adopted zimlet available in the [\[\[https://github.com/Zimbra-Community/adopted|Zimbra community repository\]\]](https://github.com/Zimbra-Community/adopted) all now officially Zimbra Collaboration Server 8.5 now.

„All“, however, is the wrong word. There are two exceptions:

- \* The

[\[\[https://github.com/Zimbra-Community/adopted/tree/master/ca\\_uoguelph\\_ccs\\_coloredemails](https://github.com/Zimbra-Community/adopted/tree/master/ca_uoguelph_ccs_coloredemails) plus [“Colored E-Mails” zimlet\]\]](#) doesn't work in 8.5, because of a missing functionality. I've created bug [\[\[https://bugzilla.zimbra.com/show\\_bug.cgi?id=95344|95344\]\]](https://bugzilla.zimbra.com/show_bug.cgi?id=95344) at Zimbra about this

- \* I will deprecate the

[\[\[https://github.com/Zimbra-Community/adopted/tree/master/com\\_zimbra\\_linkedin|Linkedin-Zimlet\]\]](https://github.com/Zimbra-Community/adopted/tree/master/com_zimbra_linkedin), as zimbra now officially bundles Linkedin-support. If somebody else would like to adopt it or help the Zimbra community, give me a hint.
